Melancon Wins State Party Office

Democrats met in Fort Worth last week for their state convention. Grayson County Democrats boosted one of their own to the Texas Democratic Party Executive Committee.

During the Senate District 30 Caucus, delegates from 14 counties selected Glenn Melancon as their Committee Man. Glenn Melancon, current Grayson County Chair, will now serve on the Executive Committee of the Texas Democratic Party along side Kay Parr, SD 30 Committee Woman. The Executive Committee is a voice for local parties and advises the State Party Chair.

"This validates the successes of the Grayson County Party," Melancon said. "Local members are leading marches, staffing phone banks and raising money to help candidates. Without their efforts I would have never earned the support of the caucus. Thank you Grayson County Democrats for Being Part of the Solution."

This is a two year term which includes quarterly meetings in Austin. Committee members also provide advice and support to county parties throughout the district.

"I look forward to working with my neighbors across North Texas. When we work together we can strengthen public education, expand affordable health care and repair a broken teacher retirement system."
